Dear Maury-Vashon Island Community Donor,

During the past eleven years our intimate multi-age Montessori Peace-Anti-bias founded Early Education school has expanded to include elementary and secondary participants in our flourishing programming. Annually we are asked by 30% of newly enrolled Klahanie School community for financial assistance and this year has turned many's lives upside down with the impact of COVID-19 making our work to include fiscal assistance for those that need us most to maintain equitable, sustainable and high quality education for all who seek it more important than ever.

Understanding the value in backed-up research Early Education affords for Social and Emotional benchmarks which leads to a foundation of safety and calm that ripples to cognitive advancements and supports, we at Klahanie School seek to strengthen our "follow the child" Montessori and Antibias daily work to maintain accessibility and strengthening in program abilities for the health of our community's youth and families. While our community/nation/world is facing challenges of isolation and exclusion, we at Klahanie School continue our path with added intention for solution based change in the daily work we offer celebrating difference and similarity and practice of inclusion tools while honoring civic duties during COVID-19 to education how to connect through social spacing. We continue our mission to instill a love of learning necessary for our youth in this ever changing world, we need your help to make our efforts go even further!

You can help us find a solution in our school community. Your support is crucial to our efforts to continue offering a sustainable, equitable inclusion foundation for families and teacher salary.
