

July 2021

Dear Klahanie School Community Donor-Supporter,

During the past twelve years our intimate multi-age Montessori Peace-Anti-bias founded Early Education school has expanded to include elementary and secondary participants in our flourishing programming. Annually we are requested by 30% of newly enrolled Klahanie School community for financial assistance and this year has turned many's lives upside down with the impact of COVID-19 making our work to include fiscal assistance for those that need us most to maintain equitable, sustainable and high quality education for all who seek it more important than ever.

Understanding the value in backed-up research Early Education affords for Social and Emotional benchmarks which leads to a foundation of safety and calm that ripples to cognitive advancements and supports, we at Klahanie School seek to strengthen our "follow the child" Montessori and Antibias daily work to maintain accessibility and strengthening in program abilities for the health of our community's youth and families. While our community/nation/world is facing challenges of adapting back to socialization for our youth, and feelings of isolation and-or exclusion, we at Klahanie School continue our path with added intention for accomodation change in the daily work we offer celebrating difference and similarity, practice of inclusion tools while honoring age centered civic duties during COVID-19 to education how to connect. We continue our mission to instill a love of learning necessary for our youth in this ever changing world, we need your help to make our efforts go even further!

You can help us find a solution in our school community. Your support is crucial to our efforts to continue offering a sustainable, equitable inclusion foundation for families and teacher salary.
